

The judges commented that the garden “does not compete with the view, it complements it, and looks as though it has been there the whole time, blending in well with the landscape. This is a beautiful scheme that shows what fantastic design is all about and demonstrates a superb showcase of skills. It shows craft, is unpretentious, beautifully detailed and appropriate. Sensitive and respectful of the setting and existing features, and with complex construction it demonstrates all of the skills of a competent landscaper.”

SUPREME WINNER

Sponsored by

Frogheath Landscapes

Project / HASTINGS

The Supreme Winner of the APL Awards 2013 is Kent based Frogheath Landscapes, for their creation of a visually stunning seaside garden retreat in a secluded cliff top location in East Sussex.

This garden, designed in-house by Frogheath's Tina Vallis, was also the winner of the Overall Design and Build Award. Set on a steep sloping, cliff-edged seaside setting, very difficult access to the site had to be overcome to create a garden with level areas and safe access with outstanding views. The client requested that the garden was to incorporate improved access from the beach to the house, a hot tub with a great view, a writing room, subtle lighting around the garden, and a contemporary gas fire pit.

WINNER

Frogheath Landscapes

Project / HASTINGS

The judges commented that "this is a beautifully detailed project which demonstrates what good design and superb craftsmanship is all about. A totally unpretentious scheme which blends beautifully with the surroundings."

Frogheath Landscapes is the winner of the Overall Design and Build Award, and is the APL Awards Supreme Winner 2013, for their creation of a visually stunning seaside garden retreat in a very secluded cliff top location.

Set on a steep sloping, cliff-edged seaside setting, very difficult access to the site had to be overcome to create a garden with level areas and safe access with outstanding views. Frogheath's in-house designer Tina Vallis, really rose to the challenge of the client brief who requested that garden was to incorporate improved access from the beach to the house, a hot tub with a great view, a writing room, subtle lighting around the garden, and a contemporary gas fire pit.
