

*The judges praised Peter by declaring him "an employer's dream; exactly what someone would look for and what the industry wants."*

Peter Belton of Frogheath Landscapes shows great dedication in pursuing his career in landscaping. He has continually achieved high standards of practical work and secured training at numerous levels even against the odds of having his learning disrupted midway due to the closure of the skills centre that he was attending.

Peter came to Frogheath as a work experience student and later joined as an

apprentice while attending college one day a week to gain a Level 2 Diploma in Landscaping and a Lantra Intermediate Apprenticeship in Horticulture in the Landscaping Sector. Peter then went on to complete a Level 1 Course in Brickwork and is currently completing his Level 2 at a second college. The judges praised Peter by declaring him "an employer's dream; exactly what someone would look for and what the industry wants."
